

From : Michael Nilsson (SE)

Hi Fred!

The FMP100 sounds amazing, even better than the best sounding demos on YouTube.

The voicing, compression and feel is perfect (this is really hard to do, I know).

I got really good sound with Torpedo CAB (which I expected), but I got a real surprise when I connected it into the loop return on my Orange OD 120 from 1975.

The Orange transformed to a really good sounding Marshall 1959.

I plan to post some videos on YouTube (I hope I can find the time).

Regards,

Michael Nilsson
